

### FRICKE AFTER HAIL INSURANCE MEN RECOMMENDS THAT SALARIES BE LOWER.

Says That the Officers of the Sparta Company Are Paid Too Much—Also Says That the Five Per Cent. Assessment Should Be Made Four Per Cent.

One hundred and fifty Rock county farmers, who as members of the United Farmers' Township Mutual Hail Insurance Company, of Sparta, are at present ready to fight the payment of a 5 per cent assessment made by the company, will be interested to know that State Insurance Commissioner Fricke, at Madison, is deeply involved in solving the mystery of this company's affairs.

#### The Assessment Reduced

Complaints have come to the insurance commissioner from many Wisconsin farmers of the action of the company in levying a 5 per cent. assessment upon its policy holders to pay its debts. Commissioner Fricke had an examination made by Chief Clerk True, who reported that the 5 per cent. assessment would realize about \$50,000 and would leave a surplus of over \$15,000. Upon this report the commissioner has sent a letter to the president of the company recommending an assessment of 4 per cent. and saying that he is satisfied that this will be sufficient for all legitimate purposes, and will allow for shrinkage in collecting assessments. He also recommends that the salaries of officers be reduced, the president's from \$2,500 to \$1,500 and the secretary's from \$1,500 to \$1,000. The commissioner says in conclusion: "I shall approve of the levy of the assessment here indicated and have reason to believe the policy holders will generally pay such assessment."

#### What Of The Future?

An examination has also been made of the State Farmers' Mutual Hail Insurance company, of Trempealeau, and a report is expected soon. Just what the company will do with Commissioner Fricke's request now remains to be seen and will be watched with much interest by Rock county farmers.

### KNIGHTS TEMPLARS PARADE.

Important Day in the Triennial Convocation at Pittsburgh.

Pittsburg, Pa., Oct. 12.—What Jerusalem was to the crusaders almost 1,000 years ago this city is at present to the Knights Templar. There could not have been a more beautiful day for a parade of Knights Templar from the first convocation held in 1816 at New York city. The hour of the parade was set for 10 o'clock a. m., and from early dawn everybody and everything was astir at the various headquarters of the different commanderies preparing for the march.

In the meantime the points of vantage along the route of the parade were rapidly being filled up. Seats had been erected all along the line of march to accommodate 200,000 people. It is estimated that the parade proper was made up of upward of 25,000 uniformed knights, and at least 1,000,000 spectators lined the route of the parade, which was seven miles long.

The head of the parade formed at the corner of Cedar and North avenues, Allegheny City, and at 9:30 o'clock Brig.-Gen. J. P. S. Gobin, the grand marshal of the parade, with his staff of mounted lieutenants and aids, left his headquarters at the Monongahela, and accompanied by the strains of Sousa's march, "The Stars and Stripes Forever," made his way down Fifth avenue, Pittsburgh, across the suspension bridge, into Allegheny City. Promptly at 10 o'clock Gen. Gobin gave the command and the great parade started.

The parade passed off very successfully, except that at the time half the marchers had gone by a given point it began to rain in short but sharp showers. However, not even the down-pour appeared to have any visible effect upon the enthusiasm of the paraders, nor did it drive the spectators from the sidewalks. There were no serious accidents or mishaps of any kind during the entire march, which lasted fully three hours.

The parade disbanded at Shenter park, and immediately after the grand commandery met in conference hall for the first actual business session of the convocation. The report of the grand treasurer showed receipts of \$26,791 and disbursements of \$9,727. The net cash resources are \$17,064.

The report of the grand recorder contained much statistical information. The gains since the last convocation have been: Knights, 6,995; affiliated, 973; reinstated, 406; total, 8,374. The losses have been: Died, 1,658; dismissed, 1,789; suspended, un-knightly conduct, 64; suspended for non-payment of dues, 2,080; expelled, 67; total, 5,638. The net gain was 2,736. Including those in the nineteen subordinate commanderies (1,363) the membership is 115,899. The receipts of the grand recorder were \$17,559.

### BADGER BOYS COMING HOME

Third Regiment of Porto Rico Will Be Given an Early Rest.

Milwaukee, Wis., Oct. 12.—The Third regiment Wisconsin volunteers, now in Porto Rico, has been ordered home. This decision was brought about today after a conference at the war department in Washington between Governor Scofield and Congressman Griffin, of Wisconsin, and Secretary Alger and Adjutant General Corbin, at which Governor Scofield presented the case of the soldiers, showing that much sickness prevailed in their ranks.

Secretary Alger issued orders that one of the transports now en route to Porto Rico be used to convey the Wisconsin soldiers home.

On their arrival in this country the troops will probably be granted a sixty days' furlough, previous to being mustered out or being reassigned to duty.

### BRIEFS FROM BELLOIT

#### A Pleasant Wedding Ceremony—Arrested For Larceny—An Old Landmark Burned.

Beloit, Oct. 12.—[Special].—A very pretty wedding took place at St. Thomas church this morning at 9 o'clock, the contracting parties being Miss Elza Kehoe, of this city, and Mr. Edward Joyce, of this city. The bride was attired in a gown of white organdie and looked very charming. Miss May Kehoe, sister of the bride, who is a teacher in Chicago, was maid of honor and Charles Collins, of Rockford, was best man. They were married with solemn high mass, the choir rendering Brown's mass in B flat. The bride is a young lady who is highly respected and was for many years the organist at St. Thomas church. The groom is well known in this city, having been in business here for a year. After a short wedding trip the newly married pair will be at home after Nov. 1, at Belvidere, Ill., where Mr. Joyce is in the saloon business, and where they will go into their newly furnished home. The couple have many friends in Janesville. The best wishes of many Beloit friends go with them. There were a number of guests from abroad present at the wedding. After the ceremony a wedding breakfast was served at the home of the bride, 816 School street, to the relatives.

A watch, an overcoat, and other articles of value that belong to Andrew Dredwell, were stolen from Mrs. Lewis' boarding house on Fourth street, Monday night. Late yesterday afternoon Marshal Appleby arrested John Arquette, of Snipe Hill, Janesville, on the charge of robbery, and he was held in \$500 bail to appear for a hearing next Friday.

At about ten minutes past nine last night the fire department was called out on account of a fire in a building at the corner of State street and Public avenue, known as the old bag factory. This building is a two-story frame structure, and has stood for about fifty years. The lower floors were occupied by a paint shop and a carpenter shop. The upper story was occupied by a family. It made a great blaze, and the firemen had hard work to keep other buildings that were close by from being destroyed. The building was owned by J. J. Vorhees, and the loss is thought to be about \$3,000. P. N. Jenkins, the furniture man, had some furniture stored in the building and his loss will be about \$1,000.

#### Methodist Conference Adjourns.

Chicago, Oct. 12.—The Rock River conference, which has been in session for the last week, adjourned sine die yesterday afternoon, the last business being the preaching appointments for the ensuing year. The conference made a final disposition of the Jennings Seminary in Aurora. After a debate, which lasted for hours, it was ordered that the trustees convey the property to the Methodist Episcopal Deaconesses' Society, to be turned into a boarding school for girls, for the ordinary branches of education, but with Bible study and industrial training as special features. The only condition exacted was that the \$2,600 debt of the institution should be assumed, and that the retiring principal, T. H. Jones, be paid \$900 as an indemnity for the annulling of his contract. The property is valued all the way from \$20,000 to \$75,000. It is the oldest Methodist educational institution in the state.

#### Episcopal Council's Work.

Washington, Oct. 12.—In the Episcopal council Tuesday the house of deputies considered the amendment to the constitution providing for the formation of provinces out of the diocesan and missionary districts. It was finally recommended. The deputies rejected the amendment limiting the boundaries of the proposed provinces to state lines and adopted one providing that no provinces shall be so bounded as to contain only a fractional portion of a state or states. After briefly touching upon the proposed canon on marriage and divorce, the bishops adjourned.

### INDIANS WILL BE OVERAWED

DEMONSTRATION IN FORCE UPON LEECH LAKE.

Troops To Go to Minnesota From Fort Sheridan and Columbus Barracks—Savages Will Be Shown the Folly of Resisting the Government—Few New Developments.

Washington, Oct. 12.—[Special].—It has been determined to make short work of the Indian rebellion at Leech Lake, Minn. Orders have been issued, in response to the request of Gen. Bacon, for the transportation of 1,100 soldiers now stationed at Fort Sheridan and Columbus barracks to the scene of action. Henceforth there will be no parleying with the savages. They must submit or be exterminated. The fighting force of the Indians does not exceed 500 men all told. Already there are about 600 soldiers at the scene of the disturbance. While these are sufficient, it is believed, to cope with the savages; the intention is to run no risks, but to confront them with an overpowering force so as to show the rebels the futility of resistance.

What punishment will be meted out to the leaders of the rebellion has not yet been determined. There is no disposition to deal harshly with them, as their conduct is attributed to ignorance rather than viciousness. But an example will have to be made of them to deter other Indians from following their example. The decision will be deferred, however, until the end of hostilities.

Walker, Minn., Oct. 12.—[Special].—The situation is alarming today. A guard is still being maintained. Messengers who went to the hostile camp last night with commissioner Jones' message returned and said the Indians would not define their position until they had conferred with Jones. The matter may be settled tomorrow.

### CANNOT COLLECT INSURANCE

Supreme Court Decision Affecting the Odd Fellows' Benefit Company

Of special interest to local members of the defunct Odd Fellows' Insurance company is the outcome of a case just decided in the supreme court of the state of Wisconsin.

Mrs. Frances Kahn sued Assignee John L. Finton, of the Odd Fellows' Insurance company for the amount of her husband's insurance policy. Her husband died about a year after the company went into insolvency, and Mrs. Kahn's attorneys claimed that his policy was a debt which could be collected entire from the assets of the company. The circuit court of Milwaukee county, however, held that the policy was not a debt, and that Mrs. Kahn must wait and share in whatever funds were left of the company's assets after the payment of all debts and expenses of the assignment. Mrs. Kahn appealed from this decision, and the supreme court upholds the circuit court.

#### Mrs. George's Hearing Begun.

Canton, Ohio, Oct. 12.—The preliminary hearing of Mrs. Annie E. George, accused of murdering George D. Saxton, was commenced in justice court Tuesday. The evidence thus far pretty clearly establishes that she went to the vicinity of the tragedy about the time it occurred, and that she had made threats against the life of Saxton. Court adjourned to-night with five witnesses for the state examined. The testimony was in line with that given in interviews and taken before the coroner, as has already been published.

It is desired now to increase the floating strength and to expend a considerable sum in the purchase of new vessels.

### PHILIPPINES THE STUMBLING BLOCK

PEACE COMMISSION CANNOT FIX THEIR STATUS.

All Europe Expects the United States To Take the Whole Group—They Are Ours By Right of Conquest and Possession—Troops From Porto Rico.

Paris, Oct. 12.—[Special].—A gentleman who has opportunities of knowing the situation declares that no doubt exists among the diplomats throughout Europe that the United States will assume definite control of the entire Philippine archipelago. It is conceded on every hand that the islands of right belong to the United States, and that if it chooses to relinquish control over any of them it will be an act of magnanimity for which Spain may be grateful, but which Spain has no right to expect. The American commissioners are said to be unanimous in favor of the retention of the islands.

Washington, Oct. 12.—[Special].—On Tuesday next the American flag will be raised over the island of Porto Rico, and from that date it will become an integral part of the United States. The authorities here have notified the Spanish officials at San Juan that orders for the raising of the flag on the day indicated have been issued, and the Americans will take full charge of affairs. This knowledge relieves the strained relations between the Spanish and the Americans. The uncertainty heretofore existing had a very disquieting effect. American occupation is the only thing needed to insure peace throughout the island.

John Fisher, of this city, as football manager for the state university eleven, was in Chicago last evening, and saw to it that Wisconsin and Chicago universities will play football on Marshall Field November 12.

An important clause which is maintained in the agreement is one in which the managers agree that neither Coach King nor Stag shall be allowed on the field to give suggestions to their men while the play is in progress.

Manager Fisher, it is said, will insist upon having Everts Wrenn act as referee, and will object to some men whom Stag is known to favor. The matter will not be taken up until the athletic boards at Madison and Chicago have approved the contract drawn up by the managers yesterday.

### ARE NOT IN THE COMBINE

Janesville Furniture Factories Know Nothing of a Trust.

Members of the Hanson and the Janesville furniture companies profess to know nothing of the alleged furniture manufacturers' combine that is lately said to have been formed, including every furniture factory in the state of Wisconsin.

At Oshkosh this week at the meeting of furniture manufacturers held at the Tremont house, twenty factories in Minnesota and Wisconsin were represented. The meeting was called for the purpose of considering a plan to form a gigantic trust to control the furniture business in the northwest. A committee was appointed to investigate the proposed plan and report later. A great reduction would naturally be made in the cost of distribution, and middlemen would be obliged to deal with the trust which could easily regulate the output and prices. Another meeting will be held soon to discuss the plan further.

### GREEN COUNTY COURT OPENS

The first matter taken up for consideration was the calling of the civil calendar. There were a large number in attendance and the lawyers were very much in evidence, there being many from abroad, including Jeffris and Mount, B. F. Dunwiddie and L. F. Patten, Janesville.

On both the Northwestern and St. Paul roads a one half fare for the round trip is offered and that a large crowd will take advantage of the fact there is little doubt. The St. Paul road, eager to catch their share of the patronage will have a 7 o'clock morning passenger out of the city. The Northwestern expects to carry the bulk of their passengers on the early vestibule and accommodation

## AIR THEIR OPINIONS ON ANNEXATION

MEMBERS OF THE TWILIGHT  
CLUB ARE HEARD.

**Territorial Expansion Generally Viewed  
As the True National Policy—Duties  
the Country Owe to Humanity—  
The Natives of Conquered Territory  
Entitled to Protection.**

The first gathering of the Twilight club for the season took place last evening at the Hotel Myers. The attendance was large and the interest manifested testified to the fact that the members generally feel that they have a mission to perform and will be found at their post of duty.

"National Imperialism" was the topic chosen for discussion, and George G. Sutherland had been chosen as leader. G. F. Kimball opened the debate with a well considered paper on "Annexation of Porto Rico," in which he summarized the advantages of the island from a material point of view, and advocated its retention as a part of the national domain.

Fred L. Clemmons considered "The Annexation of Cuba" at considerable length. Without taking decided ground on the issue Mr. Clemmons pointed out many reasons why annexation would be desirable, but at the same time called attention to a few reasons that might be urged against such a step.

**Cuba As It Is.**

Lieutenant L. T. Richardson gave a pleasant half hour's talk upon Cuba, the results of his personal observations on the island while attached to the army of invasion at Santiago. The conditions were about the same in all parts of the island. He gave a number of incidents regarding Cuban soldiers showing them to be lazy, inefficient, thankless and with a love of debauchery and everything that was evil. They were cowards and heartless brutes. It took two hundred to capture ten of the Spanish and then they wanted to cut off the heads of the Spanish prisoners. They also stole all rations they could lay their hands on and were well fed. The people of Cuba are of two classes—very rich and very poor. There is no middle class. The very rich are highly educated. The Cuban soldiers expected to loot Santiago when it was captured, raid the saloons and secure women and then entertain their friends like gentlemen as they expressed it, but Gen. Shafter did not allow them to enter. Most of the inhabitants are negroes. They are clothed in rags, no shoes or stockings but canvas slippers. They are well armed with guns given them by our government before the war. If a man was fully dressed he was probably a major general. If he had part of a suit he was likely a brigadier.

**Natural Advantages Not Improved.**

The country is fertile but there is no animal life to speak of. Most everything is grown abundantly. The houses are of stone with no glass windows, but bars across the opening. There is no drainage but surface, and the streets are very narrow and dirty. They have no knowledge of sanitation. The roads are mere trails and only wide enough for two wagons. The Cubans rendered no assistance to Gen. Shafter in landing his troops and his army was in almost total ignorance of the country surrounding Santiago. There is a small rural population. The people congregated mostly in the cities. There are said to be places within ten miles of Santiago that have never been explored in four hundred years.

**The Philippines.**

Hon. J. M. Whitehead spoke of "The Annexation of the Philippines" as a problem that is yet unsolved. He considered it the duty of the government to keep the stars and stripes floating there, but to maintain the authority of the government would be a task of no small magnitude. A large standing army would be required, as the natives are intractable and rebellious by nature and education. The speaker considered the problem presenting itself in the Philippines as the gravest of all issues raised by the war.

Superintendent D. D. Mayne did not regard the question of territorial expansion as one in which patriotism was paramount. It was not a question of how much territory we can acquire from the islands lately under Spanish rule, but how much it is our duty to take possession of. The natives, he said, must be governed by the people of the temperate zones. We have got to do it as a matter of self protection. We can provide the government of the world. It is our duty to do it. The civilization of those countries should be our own. The most valuable possessions are the Philippines. We can do most good there.

**Territorial Expansion.**

T. S. Nolan considered the question of expansion in its general aspects. He favored the policy because it will oblige us to keep a larger standing army and navy and thus be better prepared for war; because we will become more cosmopolitan and less provincial in our views; because it will afford a wider field for the laborer and capitalist; because it means glorious opportunities, not only

for the young manhood, but the manufacture and merchant of the nation, and last but not least because it propagates the principles and emphasizes the power of free institutions. If the government of the people, by the people and for the people is a good thing, and we believe it is, let us not be selfish with it, but bestow it upon others when we have the opportunity.

Horace McElroy was the last speaker. In his felicitous manner he congratulated himself that his opinions of the Cubans expressed before the club last winter had been sustained by Lieut. Richardson, who had been there. He had no use for the Cubans and expressed his contempt for them quite forcibly. His speech was witty, pointed and well received, although in opposition to the majority of speakers. The next meeting Nov. 10 will be held as election falls on the regular meeting night. The topic will be "What Should Janesville Do To Take Advantage of the Good Times?" District Attorney Jackson will be the leader.

## ELECTRIC VS. STEAM RAILWAYS

**Supreme Court Decides the Former May Cross Tracks of Latter.**

Madison, Wis., Oct. 12.—By a decision of the supreme court today the Oshkosh, Algoma and Black Wolf Railroad company, which is constructing an electric line from Oshkosh to some of the surrounding towns, wins a victory over the Chicago & Northwestern railway company. The latter has endeavored to prevent the electric line from crossing its tracks just south of Oshkosh. The electric company then brought condemnation proceedings in the circuit court for the condemnation of right of way and secured the appointment of an appraising commission. The Northwestern company then applied to the supreme court for a writ of certiorari to review the proceedings in the circuit court for the purpose of having them set aside. The electric company at the same time moved to quash the writ, and this motion the supreme court has granted. This disposes of the case and gives the electric company the right to go ahead with its proceedings in condemnation of right of way.

Light refreshments will add to the spirit of the evening. It will be a grand reunion of members of the church and friends of the cause. Everybody who comes will be made welcome. There will be no charge. The year opens auspiciously in Court Street church.

## CADETS HAVE DISBANDED

**Expect to Soon Reorganize Under New Set of Rules.**

The Christ Church Cadets, a local military organization, has disbanded. This move was decided on at a recent meeting of the officers held for the purpose of seeing just what could be done toward putting the organization on a more firm footing.

For several weeks past several of the members have not shown the interest in the company that was desired, and in order to have them removed by the enforcement of more strict rules it was decided to disband and reorganize later. That the company will form again there is no doubt, as fully twenty-five of the former members have signified their intention of joining. When the company is reorganized new by laws and other rules will require all members to live up to instructions or receive a dishonorable discharge.

## POTATOES ARE COMING IN

**Farmers Anxious to Dispose of the Tubers at Reasonable Prices.**

Potatoes in wagon load lots arrived in the city today from many sections of the country. Farmers were anxious to sell at 35 cents a bushel, and the most of them had no trouble in disposing of their loads to families who are laying in their winter supply.

Most of the local grocers have not invested heavily in the potatoes so far, claiming that they will yet be much cheaper, especially when they commence to arrive in car load lots from the north.

Old fashions in dress may be revived, but no old fashioned medicine can replace Chamberlain's Colic, Cholera and Diarrhoea Remedy. For sale by People's Drug Store corner Main and Milwaukee St.

**Removal Notice.**

On and after Nov. 1 I shall be at my new office No. 26 West Milwaukee, first stairs west of postoffice, formerly occupied by Dr. Dudley, where I shall be pleased to see all my friends and clients. Angie J. King, Attorney-at-Law, No. 26 West Milwaukee street, Janesville, Wis.

More than twenty million free samples of De Witt's Witch Hazel Salve have been distributed by the manufacturers. What better proof of their confidence in its merits do you want? It cures piles, burns, scalds, sores in the shortest space of time. People's Drug Co., corner Main East Milwaukee streets.

**Strikers' Last Entreaty.**

Paris, Oct. 12.—The strike meeting Tuesday, although they adopted resolutions in favor of continuing the strike, displayed a fast waning enthusiasm, and the leaders fear the movement will collapse. In the meantime there will be no relaxation of precautions. More troops will be drafted into the city, some sensational outcome to the strike being still apprehended. The Paris correspondent of the Kreuz Zeitung has been expelled for telegraphing to Berlin that a revolution had broken out in Paris and that the Bon Marche was on fire.

The strikers' central committee is a political and revolutionary organization, and it is engineering the dispute as if it were a strike of the proletariat.

**Brought Little Gold.**

Port Townsend, Wash., Oct. 12.—The steamer Topoka has arrived from Alaska, bringing about 240 passengers from the various northern mining districts. Many of the Topoka's passengers are from Dawson, but they bring little money with them.

**Dr. Bull's Cough Syrup Has Superior Merit.** Try it for a cough or cold and be convinced. There are many cough remedies on the market but Dr. Bull's Cough Syrup is the best.

**Notice.**

For the accommodation of those who are unable to get to the office during office hours to pay taxes, I will from now until November 1 be at the office on Wednesday and Saturday evenings from 7 to 8 o'clock. JAMES A. FATHERS, City Treasurer.

## REPORT ON QUAY'S CASE.

**Inspector Has Finished His Investigation of Postoffice Charges.**

Washington, Oct. 12.—When charges were made that Senator Quay of Pennsylvania had disposed of postoffices in Lehigh county in that state for a cash consideration the postoffice department sent Inspector Allen to the scene with instructions to make a thorough investigation before leaving the city.

Postmaster General Smith, who is from Pennsylvania, gave instructions that the inspector's report should be made public as soon as received. It has been delivered here, but after careful consideration both at the department and the white house it has been found necessary to suppress the conclusions of the inspector until he has collected affidavits to substantiate his conclusions. He has been instructed to have his witnesses make their statements under oath.

It will take him some time to prepare the documents, and nothing will be made public concerning the investigation until he has completed the work.

**Meeting from Yellow Fever.**

Jackson, Miss., Oct. 12.—The proclamation of Dr. Purnell, state health officer, advising still further depopulation of the city, is having its effect, and more people are departing for the north. It seems impossible to check the spread of the disease. An impression prevails that there is yellow fever in Millsap College, north of town, but this is an error. The nearest infection to the college is several hundred yards distant. The new cases were reported Tuesday—all white. Dr. Purnell is investigating suspicious sickness near Crystal Springs. Dr. Carter of the marine hospital service is here.

**Robbers Loot Michigan Bank.**

Grand Rapids, Mich., Oct. 12.—The private bank of Jacob Denherder at Zeeland was looted by robbers early Tuesday. All currency was taken, except \$1,000 in silver, which the thieves rejected as too inconvenient to carry. From noises heard by those living near by it is believed the vault was blown open and the safe wrecked at about 3 o'clock. Nitroglycerin was used in wrecking the vault, and everything shows the work of professionals. Mr. Denherder refuses to tell the amount stolen, but it is believed to be between \$3,000 and \$5,000.

**Indiana Baptists at Peru.**

Peru, Ind., Oct. 12.—The one hundredth anniversary and the sixty-sixth annual convention of the Baptist church of Indiana convened in this city Tuesday with a delegate attendance of nearly 1,000. The meetings will continue to Monday. The program consisted of welcoming addresses with responses and the convention sermon by Rev. P. O. Duncan of Franklin college.

**Heavy Fire Loss at Tacoma.**

Tacoma, Wash., Oct. 12.—The Tourist hotel, under construction by the Northern Pacific Land Company, was burned last night. There had been expended on the structure up to date \$800,000, upon which there is no insurance. The structure, when completed, was to have cost over \$1,000,000.

**Turkey Accepts Terms.**

Constantinople, Oct. 12.—The reply of the Turkish government to the note of the powers on the evacuation of the island of Crete was handed to the ambassadors last evening. Turkey accepts the terms proposed, but expresses a wish for certain modifications.

**Dr. Bull's Cough Syrup Cures All**

throat troubles. Why wear out your throat by incessant coughing, when this reliable remedy can be bought for only 25 cents a bottle?

**Master Masons Take Notice.**

There will be a special communication of Janesville Lodge, No. 55, F. & A. M. on Thursday at 1 o'clock for the purpose of attending the funeral of the late John T. Wilcox. All master masons are requested to attend.

## LOCAL EVIDENCE.

**One Line of Janesville Evidence is**

**Worth a Column of Foreign**

**Testimony.**

Make a mental note of this. The endorser is well known in Janesville.

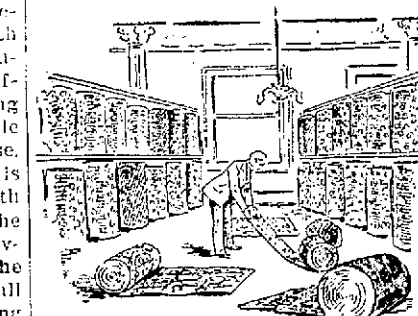

His veracity is unquestioned. You are reading local evidence, investigating home testimony. Janesville news for Janesville people. Suspicion can't lurk around it. Honesty is its prominent characteristic.

Home endorsement its salient point. Mr. Thos. Pratt of 281 South Main St. says: "I doctored off and on for forty years, attempting to rid myself of backache, which came on by spells, very painful when at their height and even when somewhat allayed, the dull aching grinding was sure to manifest itself, if I overtaxed myself, caught cold or did any work which brought a strain on the muscles of the back. Often I have been so lame and sore that there were days I was confined to my room almost helpless, certainly unable to get up or down. Like a great many other people in Janesville I procured Doan's Kidney Pills at the Janesville Co's. drug store, led to do so by the peculiar advertisement which riveted my attention. After taking a thorough course of the remedy I was able to go to the quarry and sling an eighteen pound hammer without showing any signs of a recurrence. If I am subjected to future attacks I know what remedy to employ."

Doan's Kidney Pills are for sale by all dealers. Price, 50 cents. Mailed by Foster-Milburn Co., Buffalo, N. Y., sole agents for the U. S.: Remember the name Doan's and take no other.

## Three Doctors in Consultation

From Benjamin Franklin.  
"When you are sick, what you like best is to be chosen for a medicine in the first place; what experience tells you is best, to be chosen in the second place; what reason (i.e., Theory) says is best is to be chosen in the last place. But if you can get Dr. Incision, Dr. Experience and Dr. Reason to hold a consultation together, they will give you the best advice that can be taken."

When you have a bad cold Dr. Incision would recommend Chamberlain's Cough Remedy because it is pleasant and safe to take. Dr. Experience would recommend it because it never fails to effect a speedy and permanent cure. Dr. Reason would recommend it because it is prepared on scientific principles, and acts on nature's plan in relieving the lungs, opening the secretions and restoring the system to a natural and healthy condition. For sale by People's Drug Co., corner Main and Milwaukee streets.

## The Hawaiian Islands

The Chicago & North-Western Railway has issued a booklet with the above title, giving a brief description of these islands, topography, climate, natural resources, railways, schools, populations, etc. It contains a folding map and mentions the various steamship lines plying between the Pacific ports and the islands. Attention is also called to the unparalleled facilities offered by the North-Western line, "the Pioneer Line west and northwest of Chicago," for reaching San Francisco, Los Angeles, Portland and other western points. The booklet will be sent to any address upon receipt of four cents in stamps by W. B. Kniskern, 22 Fifth avenue, Chicago.

## How to Prevent Croup.

We have two children who are subject to attacks of croup. Whenever an attack is coming on my wife gives them Chamberlain's Cough Remedy and it always prevents the attack. More of it is sold here than of all other cough medicines combined. J. M. Nickle, of Nickle Bros., merchants, Nickleville, Pa. For sale by People's Drug Store, cor. Main and Milwaukee streets.

## RASPS THE RECORDER

Under the heading "Why Not Be More Decent," the Madison State Journal says: "One of the most reckless and unreliable democratic papers in the state is The Janesville Recorder. It seems to have an indifference for the facts that is really alarming. In its charges against republicans and republican officials it is utterly regardless of the truth. It seems to say anything it can think of that it believes may produce some political effect unfavorable to the republicans. In a late issue it says that Governor Scofield is traveling around the state on railroad passes in quest of support. As a matter of fact, the governor has not traveled a rod since his nomination in the interest of his candidacy. His entire time has been devoted to his official duties, and not an hour has been spent in attempting to aid his chances of reelection. He has been out of the state considerable of the time, as he is now, in the interest of the soldiers. Why can't the papers be a little more accurate and decent in their political accusations and discussions?"

## CHILDREN WHO WORK.

Statistics gathered by the state factory inspectors show that are 3,360 children under sixteen years of age working in the factories of the state out of a total of 33,805 operatives. The inspectors found only 155 children below fourteen years, the age limit, at work. Labor Commissioner Erickson says that violation of the law in this respect is due to parents, and that employers accept their statements as to the ages of the children. The average wages paid children under sixteen years of age is \$2.69 a week, the highest being \$3.50 and the lowest in cracker and confectionary factories, \$1.96. The average time these children were employed is twenty-three weeks. Of the 3,360 employed 2,070 were boys and 1,284 were girls. All but forty-three of the whole number were living with their parents and in 1,219 cases 769 said their parents owned their homes while 450 lived in rented houses.

Word is received that a fever-stricken tramp, who took refuge in a church near Jackson, Miss., was cremated when the building was fired by persons who feared a spread of the malarial in the neighborhood. Oh, civilization!

There is something in some names. Booz and Mudd are running for congress in Maryland.—Milwaukee Journal.

Yes. Probably Booz will get drunk, while Mudd will claim that he was "thrown" by his friends.

Did you register? If not see to it to the next meeting of the board.

## CHINA.

A Few Side Lights on a Most Interesting Country.

China is called the Celestial Kingdom because it is the most antihumanly place on earth. It is very, very old, so old indeed that it is breaking up, and its decay may be expected at any time. Its ruler is called the Son of the Sun. His mother was the moon, and from her he derives most of his qualities. Our word lunatic most aptly describes these lunar qualities.

The greatest Chinaman that ever lived, and that is saying very little, was Confucius, which is the cause of China's being full of confusions. The smallness of the feet of Chinese women is artificially secured, but the smallness of the brains of the men and women is wholly natural. The Chinese have curious customs. One of them is that politeness permits even commands, one to ask any one he meets, "How old are you?" This is said to women as well as to men, which proves that the Chinese are savages.

The Chinese make good actors because they always look out for their eyes. These eyes are worn out of reverence for the sacred animal of China, the dragon, whose tail was his chief part. The dragon is now extinct, but his ghost is permitted to drag on a sad career. Those who have seen pictures of the dragon will understand me when I say that his form is full of twists and wrinkles. In this fact is found an explanation of the elaborate and quibbling methods of Chinese form and ceremonial observance, which are the most fearful in the world. The dragon is brother to the serpent, the devil, but is not half so civilized. The Chinese eat mice, which is the reason so many misers are found among them.

As a general rule, the Chinese mind operates at irregular intervals, long apart, though in a large number of cases there is no apparent mentality. Nobody on earth but a Chinaman could, without being particularly displeased at the task, turn a wheel for life, not knowing why the wheel must be turned, not caring why, well content with the wages of a penny every other year. The Chinese are greatly pleased with the foreign devil's railways, as they expect the said devils are constructing these routes for the sole purpose of going away by them. The greatest living Chinaman is Li Hung Chang, who goes in and out of office oftener than any other man in the world and with less cause for either—Judy.

## Tact.

Proprietor of Shoe Store—You may go back to the cashier and get your money. You will never be a success in this business.

New Clerk—Why?  
Proprietor—When that lady came in just now to get a pair of shoes, you asked her what size she wore. You have no tact. You should have said, "Let's see, about No. 2 is your size, isn't it?" No wonder she went away without buying.—Cleveland Leader.

## Fatal Neglect.

"Am I the first girl you ever loved?" she asked.  
"You are. I swear it," he replied.  
She turned from him in disappointment.  
"And you're 21 years old?" she said.  
"How you must have wasted your opportunities!"  
Naturally that settled his case, for she was an up to date girl.—Metropolitan.

## Perfectly Happy.

"Weren't you somewhat dismayed when the smoke of battle was thick around you?"  
"Oh, dear, no," answered the young man who is trying to look like the Prince of Wales. "As soon as it got dense enough I rolled up my trousers and imagined I was in a London fog."—Washington Star.

## It Is to Laugh.

L'Enfant Terrible—I've a good joke on father.  
His Oldest Sister—What about?  
L'Enfant Terrible—Father saw Mr. Poorchap in the parlor last night with his arm around you, and dad's so near-sighted he thought it was Mr. Richfello, and he didn't say a word.—Metropolitan.

## The Czar's Scheme.

Smith—Come to think of it, I'm rather in favor of the czar's idea.  
Taylor—Yes. There is only one objection to it.  
"What is that?"  
"The nation that first lays down its arms will be made to hold up its hands."—Cincinnati Enquirer.

## Only For Music.

"Have you a soul for music?" she asked as she turned from the piano.  
"For music, yes," he replied, and then he hastily changed the subject and neglected to ask her to sing again.  
But she knew. You can't always fool a girl, even if she does think she has a voice.

## A Sensible Souvenir.

"What did your husband bring home from the Florida camp—an alligator or a parrot?"  
"He brought home the nicest souvenir you ever saw—a coal black colored mammy who can cook like an angel."—Cleveland Plain Dealer.

## Not in One Kind.

"Remember," said the good man, "that there are sermons in stones."  
"Not in those that you run against with your bike," retorted the cynic, and the argument was necessarily at an end.—Cincinnati Commercial Tribune.

## Some Pleasantry.

"Mince pies are coming in again," gleefully observes the Boston Globe. We shall now expect to hear that the New England coast is threatened by phantom fleets, pink zephyrs and blue winged goats.—Chicago News.

## WAGON WORKS MAY BE BROUGHT HERE

STOUGHTON FACTORY LOOKING FOR LOCATION.

Prominent Business Man From Stoughton Was Here Yesterday—Janesville Would Do Well to Look Into the Matter.—Factory One of the Best in State.

The Stoughton Wagon works are looking around for a more advantageous location.

Could the citizens of Janesville do better than to bring here this important factory?

That they intend to leave Stoughton there is little doubt, and already the citizens of Madison are making efforts to attract them to the Capital City.

May Come Here.

A well known business man from Stoughton was in Janesville yesterday, and stated that if the citizens here would take the right steps in the matter there was but little doubt their offer would be taken into consideration by the Stoughton firm.

"Since they suffered by fire several months ago they have not felt much like erecting buildings that would be a credit to such a firm," said the Stoughton man yesterday. "The city of Stoughton does not realize that it has today one of the best manufacturing institutions in the state, and the members of the firm are fully alive to this fact. That they now contemplate moving, there is little doubt."

May Be Had For the Asking

Janesville as a central shipping point would of course be superior to Stoughton with its one line. It is rumored some substantial inducements may be made by the competing railroads.

The Stoughton company employs between 300 and 400 hands and the removal of its plant to Janesville would bring an additional population of nearly 2,000 to the city. Some years ago the shops were destroyed by fire. T. G. Mandt & Co. then had control. The company was later reorganized under the present firm name. A second destructive fire occurred some months ago.

Rich Fur Display.

Hoffman & Lehman, Milwaukee's reliable fur firm, will exhibit their handsome line of rich furs at the Grand Hotel, Thursday and Friday, October 13 and 14.

If you think of buying a collarette, you should see this great variety at all prices.

Their representative will be pleased to give estimates on remodeling and repairing; also any information desired. Special attention given to seal garments.

All ladies invited to visit display and inspect this rich line of furs.

Stop that cough. Take warning. It may lead to consumption. A 25ct bottle of Shiloh's cure may save your life. For sale by People's Drug Co.

Sale of Furniture.

The household effects belonging to the estate of Judge M. M. Phelps deceased, will be sold at his late residence, 120 Lincoln St., Saturday, October 15, 1898, commencing at 10 o'clock a. m. B. F. Dunwiddie, administrator.

Snake Attacks a Lamb.

Stephen DeArmit of Jackson township, Huntington county, Pa., while walking through one of his fields saw a commotion among the sheep, and on approaching them he discovered a large black snake which had commenced to swallow a lamb. DeArmit, who had a long hickory cane with him, attacked the snake, and after striking it several blows, at the same time avoiding the snake getting too close to him, succeeded in killing it. It measured eight and one-half feet.

One of the Few.

Commodore Philip has protested to the secretary of the navy against his own promotion because it is made at the expense of his comrades and friends, who, he believes, have performed their duty quite as ably and bravely as he. He can not decline the promotion, for if he did so it would be equivalent to a resignation from the service.

"Grateful to the Palate."

Says a Fancy Grocer,

of Grape Nuts

The famous food.

A SECOND DISH

Showed the Value of Condensed Food.

"It is a delicious novelty and very grateful to the palate. I found, about midway in my second dish that I had sufficient for a meal and recognized that I was eating a condensed food that supplies one's wants with a few spoonfuls and does not require anything like the volume to furnish the amount of food required, as when any of the ordinary forms of cereals are served. Grape-Nuts are an elegant food and the Postum Cereal Co., Ltd., are to be congratulated upon the discovery," said a well known fancy grocer of Grand Rapids.

FABLE—An elephant was cooling his toes in a stream one day. A frog passing by thought it would be fun to have a body as large as the elephant, and forthwith began to puff and puff, but alas for the frog he burst! ## HE IS A COMMON SCOLD.

Has Been Nagging at His Neighbors All Summer.

The unusual spectacle of a man arraigned as a common scold was enjoyed by a choice audience which gathered in the courtroom of the police station at Front and Master streets the other morning, says the Philadelphia Record.

Magistrate O'Brien occupied the judicial bench, and the prisoner before him was John Hartmann of 937 Marshall street. The audience was principally composed of Hartmann's neighbors, and the principal witness against him was Charles Pickett, who resides next door to him. Pickett testified that Hartmann has been nagging at the people of the neighborhood for some time. Hartmann objected to his neighbors sitting upon their doorsteps at night, and insisted that they should stay inside and go to bed early. On one occasion he deliberately turned the hose upon Pickett and his wife because they refused "to go in the house by 10 o'clock." Several women in the courtroom chimed in with a concert of anecdotes, but were suppressed by the judge. Hartmann, who has a pronounced Kaiser Wilhelm proclivities shouted: "Vy don't dey mofe deir houses und go? I am a nuisance not."

When the magistrate held Hartmann on the charge of being a common scold and demanded bail, the defendant's lawyer cried: "You can not hold my client on that charge. Who ever heard of a man being a common scold?" "I did, just now, and unless your client enters bail for \$400 he will take a ride in the wagon waiting outside," replied the court. Hartmann's brother-in-law went on his bond.

## LOCAL RESIDENTS SLOW TO RESPOND

FIRE VICTIMS MUST LOOK ELSEWHERE.

The Citizens of Janesville Have Not Been Active in the Way of Contributing—Most of the Surrounding Towns Have Made Liberal Donations—Madison Does Nobly.

Sufferers from the forest fires in the northern portion of the state must look elsewhere for aid than to the citizens of Janesville. That is the way the local committee sums up the situation at present.

Several days ago a call for cast off clothing and shoes of all kinds was made, in the hope that the citizens would respond liberally, as they always have in the past.

Only One Donation.

A place at which these contributions were to have been received was named, but the citizens have so far failed to respond in a way that would indicate that they regarded the plan as a good one. Although some have made small donations in the way of clothing the whole amount on hand does not warrant the filling of a medium sized box.

Other People Respond.

At many of the surrounding towns the citizens look at the matter in a different light. At Madison six big packing boxes, filled with all kinds of clothing, have already been shipped north, and more are in sight. What the citizens of Janesville are asked to contribute is nearly everything in the line of clothing—dress skirts and waists, overcoats, suits, and all varieties of underwear, hats, caps, boots and shoes, bedding—all the articles which will be first needed by the unfortunate whose homes and contents have been destroyed by the devastating flames. Most of it will probably go to Alameda, Barron county, in the midst of the fire-swept region.

All Odd Fellows will meet at the hall of Janesville City Lodge No. 90, J. O. O. F. at 1 p. m. Thursday, to attend the funeral of our late brother, J. T. Wilcox.

LESLIE HOLMES, N. G.

Synopsis.

The editor of the Albion, N. Y., News told his compositor that flat and level were synonymous words. One day he had occasion to speak of a townsman as a level headed man. The word "level" had too many letters for the line of type in which it was to appear. The printer, bearing in mind the employer's injunction, substituted "flat." It required a personal apology and a long explanation to save the editor from assault and a libel suit.

## AMERICANS TO CONTROL.

Spaniards Would Have Our Officers Rule in Cuba.

EVEN FAVOR ANNEXATION.

Independent Government by the Cubans Is Obnoxious to Indian Uprising in Minnesota. A Topic for Comment to French Newspapers.

Paris, Oct. 12.—At the joint meeting of the Spanish and American peace commissioners yesterday it is announced the Spaniards were given a firm refusal to the proposition looking to the United States assuming liability for Cuba's debts. The Spanish members again asked for time to consult with Madrid, although they were assured that the authorities at Washington would not change their position in the least.

It is believed that the Spaniards—not only members of the commission, but a majority of subjects of the commission—would rather see Cuba under complete control of the United States than to have an independent government established on the island by the insurgents. This sentiment, it is believed here, is likely to hasten the day when Uncle Sam will seriously consider the annexation problem.

The Indian uprising in Minnesota has not been employed by the press here as it would have been at the beginning of the war. La Liberté is the only paper to turn it against the United States. It contained a leader Tuesday entitled "Mote and Beam." The "mote," of course, is Spanish oppression in Cuba. The "beam" is the treatment of the Indians by the United States government. The editorial ends with the triumphant query, "Have the Spaniards even done worse in Cuba and the Philippines?"

The situation with reference to the presence of a French force in the upper Nile region continues to hold first place in the newspapers here. France—in so far as the newspapers represent the nation—shows no more signs of yielding than does Great Britain. Le Temps unquestionably voices the general French opinion when it closes its long editorial with these words: "Just as the London Times promises Salisbury the support of all England and of the whole of the British empire, so may M. Delcasse count on the unanimous support of all France."

Deputy Eugene Etienne, an authority on French colonial affairs, closes a five-column article in La Liberté with these words: "A good cause always triumphs in the end, on the condition, however, that it be defended a little."

### CHECK TO A CUBAN LEADER.

Negro Dictator Arrested Near Baracoa—Destitution Among the Natives.

New York, Oct. 12.—A dispatch to the Herald from Santiago says:

The negro brigadier-general of the Cuban army in the vicinity of Baracoa refused to allow his men who were willing to work to leave and also prevented laborers on the estates from passing his lines. Col. Wyley, commanding a battalion of the Third Immunes, arrested him and disarmed thirty-five of his men.

The Baracoa garrison is in excellent condition despite the heavy rains. At Sagua the bad roads and the consequent difficulty of obtaining vegetable food have produced sickness in the garrison. There is no forage for the mules and Gen. Wood has reduced the force there to one company, putting Col. Wyley in command of both Baracoa and Sagua. Gen. Castillo and Lieut. Col. Wyley, assistant to the civil governor, have sailed on the steamer Reina des Los Angeles on a mission to organize the civil government of the province. The principal part of the program for the Cuban celebration of the anniversary of the Céspedes outbreak in 1898 was postponed on account of the rain. A procession had been arranged in which a contingent of armed Cuban soldiers was to take part, but Gen. Wood refused to allow any soldiers bearing arms to march, taking the ground that Americans when not on duty were unarmed. Col. Freeman of the Fifth regulars, Maj. Starr of the inspector-general's department and Maj. Carr, the commissioners sent to inspect Baracoa and Sagua de Tanamo, have returned here and report dreadful destitution in the northern towns. Gen. Wood will send Maj. Starr and Lieut. Brooks with 300,000 rations, cloth stuffs and clothing to relieve the distress. No armed men are to be supplied.

**Says War Will Be Renewed.**  
New York, Oct. 12.—P. Tennyson Neely gave a private dinner to several men at Delmonico's last night and afterward called on several of them to speak. Among the speakers was Gen. Daniel B. Sickles, formerly minister to Spain, who declared that the peace commission sitting in Paris was a farce; that no agreement would be reached, and that hostilities between Spain and the United States would be renewed within three months.

**Corbett and Sharkey Agree.**  
New York, Oct. 12.—J. J. Corbett and Tom Sharkey are matched to fight twenty rounds at the Lenox Athletic club for a purse of \$20,000. The date was fixed for Nov. 22. O'Rourke agreed to a clean break and no hitting in a clinch, but held that the men could push each other off and hit at arm's length. "Honest John" Kelly will be stakeholder. He has the two \$2,500 forfeits, and the purse will be turned over to him ten days before the bout.

## ROBBERS GET \$17,000.

Expert Burglars Blow Up a Waldron (Ill.) Safe.

Kankakee, Ill., Oct. 12.—Promissory notes, some of them negotiable, valued at \$17,000, and \$50 in money was the booty secured by expert robbers who forced open the door of H. Y. Swan's office in the village of Waldron, near this city, early Tuesday morning and blow open the safe with dynamite. From the skillful manner in which the work was performed Chicago men are suspected. Numerous robberies and burglaries have been committed in Kankakee county within the last two months and in no case have the thieves been apprehended. Bloodhounds have been unsuccessfully used, the men nearly always making their escape by the railroads.

The Waldron robbery was not discovered until 7 o'clock in the morning. A hole had been drilled in the safe door and the combination blown out. The hinges were torn off. Portions of a burglar's kit were found on the floor with some tools that had been taken from a blacksmith shop close at hand, forcibly entered by the thieves.

Ten thousand dollars of the personal notes were the property of Mr. Swan. The rest belonged to the township school fund, of which Mr. Swan is treasurer. The school notes were recorded and will do the thieves no good. Most of the others were not recorded. Several strangers have been noticed in Waldron in the last few days, but the circumstance excited no suspicion.

## WORK OF THE COMMISSION.

No Discussion Yet as to the Philippines.

OUR REPRESENTATIVES FIRM.

The Arguments So Far Have Related to Cuba, Porto Rico and Guam—Strong Stand Taken as to the Responsibility for Debts.

Washington, Oct. 12.—The peace commissioners in Paris, so far from reaching a point of absolute variance on the question of the Philippines, have not as yet taken up that subject for consideration.

It is true that at the very first session of the joint commission the Spanish representatives sought to raise a question concerning the occupancy of Manila bay and town by the United States military and naval forces.

The United States commissioners promptly and unequivocally refused to consider this point in any aspect and, with some reluctance, the Spaniards gave over for the time being the effort to raise that issue. Since then the commission, whenever meeting jointly, has been engaged entirely with three questions, to the complete exclusion of the Philippines. These questions relate entirely to Cuba, Porto Rico and Guam, and, according to the very last reports from the American commissioners to Washington, they are still under consideration.

The United States will not assume any financial indebtedness as the result of the cession or release of Cuba and Porto Rico.

It was fully expected by the authorities here that the Spanish contingent on the peace commission would make a strong effort to make the assumption of the heavy financial obligations of these islands a condition of the cession of Porto Rico and the abandonment of sovereignty over Cuba. But the American commissioners were fully and definitely instructed on these points and the general tenor of these instructions was that such obligations were not to be assumed by the United States.

No dissatisfaction is felt here at the progress of the commission in the settlement of the questions assigned to it. It was fully understood that the issue presented would require the most delicate and cautious handling, and while the American commissioners were expected to deal with these with the greatest firmness it was realized that some consideration must be shown for the Spanish commissioners, who would be obliged at least to make an effort to secure an abatement of the American demands in order to satisfy public feeling at home.

It can be stated that there has been no diminution in the confidence of the administration in a satisfactory outcome of the peace negotiations at Paris.

## THE PRESIDENT AT OMAHA.

Enthusiastic Welcome Given by the Western City.

CROWDS WITNESS ARRIVAL.

Thousands of Loyal Citizens Welcome the Chief Executive and His Party to the Exposition City—Speeches Made on the Journey Through the Country.

Omaha, Neb., Oct. 13.—President McKinley inaugurated the Trans-Mississippi peace jubilee Tuesday night amid auspicious surroundings. Two hundred thousand people greeted the nation's chief amid enthusiastic scenes, and for the distance of a mile the president and his party passed through streets lined with a solid mass of shouting citizens.

The streets were brilliantly lighted with vari-colored arches and the national flag waved everywhere.

The presidential special drew up at the union station at 9:45 amid the acclaims of thousands. President McKinley was ready to alight almost as soon as the train came to a halt, and before the platoon of police could force back the crowd which closed around the train. As the reception committee came forward, having boarded the train in Council Bluffs, the president remarked upon the ease of the journey, and turning to the reception committee observed: "Such a welcome should make any one forget the fatigue of a thousand such journeys."

Scarcely had greetings been exchanged when the Army and Navy specials arrived. The two trains had crossed the state practically as two sections of one train, running the last 100 miles almost within sight of each other.

As the occupants of the two trains mingled on the platform the reception committee assigned the visitors to carriages, and the procession moved toward the center of the city.

President McKinley, Mayor Frank E. Moores of Omaha and President Watters of the exposition occupied the front carriage, and others spread out for a distance of several hundred yards. King Ak-sar-ben and 500 of his knights, composing the secret entertainment organizations of Omaha, acted as escorts to the president. The knights were gayly attired, and they formed a cavalcade that added much to the beauty of the procession.

Arriving at the city hall the party of 200 official guests hastily marched to the grand stand that had been prepared for their reception. The stand had been erected ten feet from the ground, occupying the entire space in front of the city hall, with a seating capacity of 1,000. The other seats were occupied by prominent citizens, city officials and guests from all sections of the country. The stand was decorated with life-size pictures of McKinley, war heroes and innumerable flags, bunting and electric lights.

President McKinley was given the central seat and around him were placed other members of the official party.

There were no speeches delivered and the president was given a chance to enjoy the situation to the fullest extent without any annoying formalities.

At 9:30 o'clock this morning the carriages gathered at the Omaha club, where a parade was formed and proceeded to the exposition grounds. The line started at 10 o'clock. The parade concluded at the band stand on the grand plaza, and after the guests were seated the exercises of the day commenced.

### CROWDS CHEER ALONG THE WAY.

Attention Given the President by People of Illinois and Iowa.

Logan, Iowa, Oct. 12.—The president's journey through Illinois and Iowa was a continuous ovation. The first stop was made at Deloit at 9:05, and here the president spoke a few words in response to the crowd's enthusiastic welcome.

## CHAOS IN EASTERN CUBA.

Americans Ill-Fed and Natives Starving—Industry Is Paralyzed.

Guantanamo, Cuba, Sept. 24.—Col. Ray, the military commander and governor of this district, which includes Baracoa and Sagua de Tanamo, has just returned from Santiago, where he had been consulting with Gen. Lawton. His command consists of the Third regiment United States volunteer infantry, composed of white men, enlisted in the southern states. The health of the troops since they arrived here, Aug. 20, has not been exactly good, but neither has it been so bad as that of some in some other places. Only three deaths have occurred, two from yellow fever and one from pneumonia. Maj. Norman, the surgeon in charge, says that with more fresh meat and potatoes the health of the

men would be as good as could be reasonably expected in this part of the world. Until a day or so ago they had had no beef at all, but Col. Ray succeeded finally in buying beef, obtaining ten at \$75 a head. Though naturally, as an officer, he is reticent regarding the actions of others, he complains seriously of the mismanagement of the subsistence department, which is to blame for this lack of fresh provisions. Col. Ray does not believe in the policy of sending volunteers to a conquered country, for in the first place the men enlisted to fight, and now that the war is over they wish to be disbanded, and in the second place they have no military future and therefore desire to return to their accustomed occupations. Not a day goes by without Col. Ray receiving numerous applications for discharge.

## OVER-WROUGHT NERVES OF WOMEN.

Extracts From Letters Received by Mrs. Pinkham.

"I am so nervous and wretched." "I feel as if I should fly." How familiar these expressions are. Little things annoy you and make you irritable. You can't sleep, you are unable to lift ordinary burdens, and are subject to dizziness.

That bearing-down sensation helps to make you feel miserable.

You have backache and pains low down in the side, pain in top of head, later on at base of the brain.

Such a condition points unerringly to serious uterine trouble.

If you had written to Mrs. Pinkham when you first experienced impaired vitality, you would have been spared these hours of awful suffering.

Happiness will be gone out of your life forever, my sister, unless you act promptly. Procure Lydia E. Pinkham's Vegetable Compound at once, and begin its use, then write to Mrs. Pinkham, at Lynn, Mass., if there is anything about your case you do not understand.

You need not be afraid to tell her the things you could not explain to the doctor, and is absolutely confidential. Mrs. Pinkham's vast experience with such troubles enables her to tell you just what is best for you, and she will charge you nothing for her advice.

Mrs. JENNIE BIERLY, Youngdale, Pa., writes:

"DEAR MRS. PINKHAM:—Will you kindly allow me the pleasure of expressing my gratitude for the wonderful relief I have experienced by taking your Vegetable Compound. I suffered for a long time with nervous prostration, backache, headache, loss of appetite, a heavy bearing-down feeling, also burning pains in the groins. I could not sleep, was tired all the time, had no ambition. Life was a burden to me. The pains I suffered at times of menstruation were something dreadful. I thought there was no cure for it. I saw your advertisement in the paper, and my husband advised me to try your medicine. I took five bottles, and now I am well and happy. Your medicine saved my life."

## Buggies That Live Long.

No one ever saw a buggy that wouldn't wear out sometime, but the Taylor Buggies have as long a life as any rig manufactured. Some people say that a Taylor rig will outwear three ordinary makes.

People who have used the Taylor rigs say they would never ride in any other make. Of course people's opinions differ. Some people who know nothing about Taylor Buggies might say that they would prefer some other make.

A Janesville gentleman said a few days ago that he had ridden in Taylor rigs for the past six years and would never use any other. They are easy riding, very comfortable and will wear like iron.

A good many people have said the same thing about the Taylor Buggies. We know somebody is saying good things about our rigs because we are getting new customers every day.
